

The Esther Project: Empowerment Circle Leaders Overview

Calling all Esther Empowerment Circle Leaders!

The Esther Project is a Christ-inspired, global empowerment movement that God has birthed through Rev. Tiffany M. Williams for women to position themselves to fulfill their purpose. During the Challenge, women are issued weekly challenges over the course of six months that are designed to enhance spiritual development, knowledge of the Word of God and acquisition of basic everyday essentials that every woman needs. The Challenge is open to women of all ages, races, ethnicities, nationalities and religious affiliations.

The **leader** of an Empowerment Circle is an integral component to the success of the women in The Challenge. Her role is to guide, direct, facilitate and encourage her circle to succeed. Some of the most valuable attributes an effective leader should have are patience, organization, sensitivity, assertiveness, passion and dedication.
